

WinSCP

1. Download

Download [WinSCP](#)

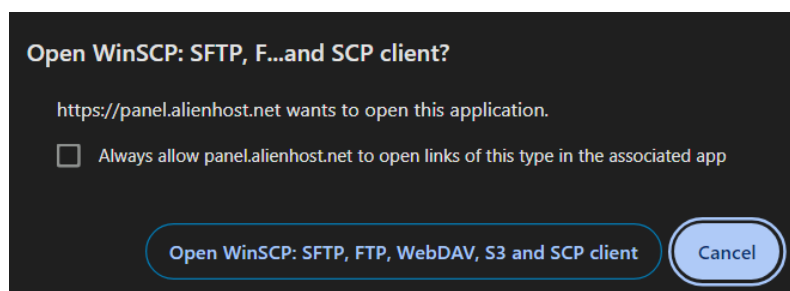

2. Getting credentials

Head to the settings tab of the server(s) you want to transfer files to

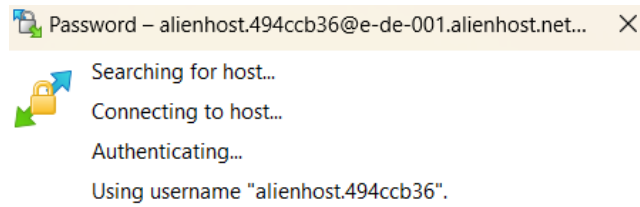

3. Connecting

Connect by clicking Launch SFTP, a popup will appear on your screen.

Click on "Open WinSCP"

A screenshot of a password prompt dialog box. It has a label "Password:", a text input field, and three buttons: "OK", "Cancel", and "Help".

Put in your panel's password and click "Ok"

Now you should be connected (if the password was correct).

3a. How to transfer files

Select the file you want to transfer by left clicking on it, wait 1 or 2 seconds, now click on it again and drag it in the correct directory. You successfully transferred a file!
